(Installation and use)

Stadium Series LED Flood Light

240W/360W/480W/720W/960W

- First, adjust the angle you need, finally fasten the floodlights with screws.
- Install the LED Floodlight onto the wall or ground, punch hole on the wall or ground, prepare the expansion screw, and then fasten the floodlight
- Connect the power wire from the Main line to the power wire of the lamp, and then make treatment for water resistance. Pls note that the Brown color wire is Live wire, Blue wire is Null line, the yellow and green wire is Earth line.
- Turn on the power supply to ensure the light is working, Installed.
