

LED Flat PANEL Light: 1200 x 600 mm - 35W

Geric Holdings Led lighting

These flicker-free LED Flat Panel Lights utilizes polarizer mobile phone screen light transmission technology resulting in more uniform luminance over the full surface of the panel while the high brightness LEDs result in high efficiency and energy-saving.

The luminaire utilizes 130 lm/W patch lamp beads which has high brightness and low light decay over its 50,000 hours service life.

Specifications

Color temperature	4000K-6500K (Cool White)
Luminous Flux	4550lm
Driver Input voltage	AC85-265V 50/60Hz
Driver	Constant Current fully waterproof
Power Factor (PF)	>0.90
Total power	35W
CRI (Color Rendering Index)	>80
Size	1200 x 600 x 16 mm
Lifespan	50,000 hours
Warranty	3 years
