Geric Holdings LED Lights

Good day

This serves to confirm that Nissan SA has evaluated and installed the lights of Geric Holdings since September 2015.

We have experienced no problems with any of these units and have performed according to the requirements and specifications set out by Nissan SA.

George in particular from Geric Holdings was more than accommodating to assist us with every request and has rendered excellent after service assistance to date.

This also serves to confirm that the latest tender in August 2017 from Nissan SA has also been awarded to Geric Holdings.

You are welcome to contact the undersigned directly should you require more information.
